APRIL — 1996

MALICIOUS CALL IDENTIFICATION PROCEDURES

To assist law enforcement personnel in the identification of annoying, harassing or life threatening telephone calls, a Call Trace feature is activated in the DTS-W switching System, that will instantly record where a call came from (if it originated in the same signaling system). This service requires no additional equipment and can be accessed from a touch tone or rotary phone.

Perform the following actions on the same line (telephone number) that a threatening call came in on.

1. Hang up after a threatening call; Wait a few seconds.

2. Immediately seize the phone line again before another incoming call.

3. At the dial tone, press *57 (or for rotary phones dial 1157).

4. Wait for the confirmation message that the call was traced.

5. Make a note of the telephone number the threatening call was received on and note of the time.

6. File a complaint with the Defense Protective Service enforcement agency, (703) 697-5555, and report the threatening call. Let them know when and from what number you traced the call. The telephone switch's buffer does not store this information indefinitely.

If the crank call is a bomb threat, then fill out the facing page as well as initiating call trace. Report the call immediately to your governing law enforcement agency.

The phone company's Annoyance Call Bureau will surrender the call trace report to the Police. The phone company will not surrender the report to any other authority.

If your telephone service is provided from a Non-TEMPO-Switch (PBX), check with the Information Management Office supporting your area for the CALL TRACE code number and reporting procedures.

* Your Organization may choose you to report such calls to your own security personnel in addition to the Defense Protective Service. If this is the case, then please be sure to follow local policy guidelines.

THIS BOOK MAY BE RECYCLED
CALL YOUR BUILDING OR AGENCY RECYCLING COORDINATOR FOR ASSISTANCE

THREAT INFORMATION SHEET

It is imperative that you attempt to obtain as much of the requested information as possible. The caller may not always provide the answer to all of your questions, but the information obtained from the questions that they do respond to can help during the investigation. Immediately after termination of the call, notify the Defense Protective Service on 697-5555.

QUESTIONS TO ASK:

Bomb Threat

1. When is bomb going to explode?
2. Where is it right now?
3. What does it look like?
4. What kind of bomb is it?
5. What will cause it to explode?
6. Did you place the bomb?

All Threats

7. Why are you making this threat?
8. What is your address?
9. What is your name?
10. Where are you calling from?

Exact wording of the threat: _____

_____

_____

THREAT INFORMATION

Sex of Caller: _____ Race: _____ Age: _____ Length of Call: _____
Number at Which Call Is Received: _____ Time Received: _____ Date: _____/ ____/_____

Caller's Voice

All DoD Customers

should dial *693–2202* to report

troubles/repairs to the System Management Center (SMC)

GENERAL INFORMATION

USE OF OFFICIAL TELEPHONES FOR PERSONAL BUSINESS

Telephones are not to be used by employees for personal messages except in case of emergency. Use pay stations located in convenient places In all buildings. Managers are expected to cooperate in securing strict observance of this instruction and each person having a telephone on his or her desk is responsible for its proper use.

LOCAL CALLING WITHIN THE DEPARTMENT OF DEFENSE

To initiate a local call to another DoD user of the TEMPO Network, simply dial the full 7-digit number for that person. *Do not dial 99 first,* or a message unit will be incurred. When initiating a call to a DoD user not on the TEMPO Network, you must dial 99, the area code if they are not in the same jurisdiction as you, and their 7-digit number. Examples of this situation are users with a PBX or users located on facilities not a part of the TEMPO Network such as Fort Belvoir, Virginia.

The following lists the TEMPO NXX Codes (Prefixes). Any number preceded by one of the NXX Codes can be dialed using only the 7-digit telephone number:

227	**274**	**275**	**285**	**295**	**325**	**394**	**404**	**428**	**433**
545	**602**	**604**	**607**	**614**	**617**	**681**	**685**	**692**	**693**
695	**696**	**697**	**735**	**761**	**762**	**764**	**767**	**782**	

CALLS TO OUTSIDE LOCAL NUMBERS FROM UNRESTRICTED TELEPHONES

Dial 99. Dial the desired number. Employees are reminded that telephones are to be used for Official business only. A charge is applied to all outside calls, except when calling government Centrex.

DEFENSE SWITCHED NETWORK (DSN) (Formerly—AUTOVON)

Numbers listed in this directory are **not** DSN.

The Defense Switched Network (DSN) is the basic General Purpose switched voice network of the Defense Communications System. DSN serves most major installations in CONUS and limited overseas areas. To avoid abuse of the Network and derive maximum efficiency, users must be familiar with the system and cooperate fully. You can assist by following these guidelines.

Consult the DSN listings in this directory or dial "O" for up-to-date information.

Send a message instead. Use DSN only when your communication requires a time sensitive reply.

Restricted lines cannot be used to place calls.

Don't use DSN for unofficial business. Unless the communication is official and essential and would stand the scrutiny afforded a commercial toll call, DSN should not be used.

Keep the call short. Policy on DSN use states that calls should be no more than approximately 5 minutes in duration. Outline your communication prior to making a call and then limit it to 5 minutes. If you are seeking information which is not readily available, ask the party on the other end to call back.

Avoid system saturation. Most DSN calls from the DC area are attempted in the middle of the morning or afternoon. When this happens there simply are not enough circuits to handle every call. Attempt to place calls throughout the day. Many calls are completed faster with less preemption in the early morning or late afternoon when there is less competition for circuits. For DSN access (CONUS only) Dial "94" listen for dial tone, then DSN number.

DSN access to overseas is not available through the DTS–W system. Overseas calls must be placed through the appropriate military switchboard serving your activity or by commercial means.

If you reach a busy signal (60 IPMS) on the number called, hang up and redial. If you reach a fast busy signal (120 IPMS), this indicates that the local or network equipment is busy. Hang up try again later.

Preemption—your call was cut off by a higher precedence call. Hang up and dial again.

Provide callers with your proper prefix for the DSN calls. Washington area numbers listed in this directory are not DSN numbers. See page 15 for cross-reference information.

LONG DISTANCE TELEPHONE CALLS

For calls within CONUS and to Hawaii, Puerto Rico, and the U.S. Virgin Islands.

Facilities are maintained within the Department of Defense for the most economical and efficient placing of long distance calls. To keep costs at a minimum, military departments must ensure that only official calls of short duration be made over the Department of Defense facilities.

1. Applies to calls from *Unrestricted* telephone numbers only.
2. To place an official long distance call, dial 99 plus 1 plus the Area Code and telephone number desired.
3. Avoid system saturation. Most Long Distance calls from the DC area are attempted in the middle of the morning or afternoon. When this happens there simply are not enough circuits to handle every call. Attempt to place calls throughout the day. Many calls are completed faster the early morning or late afternoon when there is less competition for circuits.
4. If a "circuits busy" recording is encountered, hang up and try your call later.
5. If the call is of such urgency that delays cannot be tolerated, dial the Defense operator ("O") and tell her/him of the circuit busy condition and request her/his assistance.
6. For any trouble encountered when calling long-distance, report the trouble to the DoD operator on 545–6700 or autovon 227–0101.
7. Agencies will be provided a monthly statement of long distance usage which will include calling number, date, time connected, length of call (in minutes), cost of the call, the state, and telephone number called.
8. Long Distance Information (1 + Area Code + 555–1212) may be dialed directly from unrestricted telephones. However, there is a premium charge for such calls and each call will be reflected on the monthly Telephone Usage Report.
9. Calls to Area Code "800" may be dialed direct from any DoD telephone. Calls to Area Code "800" are not billed to the telephone placing the call. However, details of Area Code "800" calls will be reflected on the monthly Telephone Usage Report.
10. Refer to page 6 for Area Code numbers most frequently called.

CONFERENCE CALLS

1. Conference Calls established for DTS–W Telephone Users via the DoD Operator can consist of a maximum of twenty-eight parties local, CONUS Long Distance and/or Overseas.
2. Conference Calls established for DTS–W via the "Meet Me" feature can consist of a maximum of twenty-eight parties, Local, CONUS Long Distance and/or Overseas. The "Meet Me" feature allows conferees to dial directly into the conference automatically at a pre-determined time without operator assistance.
3. To arrange a conference call, dial "O", ask for the DoD Conference Operator and provide the following information:
   a. Your Name—DoD Telephone Number—DoD Agency.
   b. Date/Time/Approximate duration of conference.
   c. Names/Area Code + 7 digit numbers of conference parties.
   d. Whether the teleconference will be operator-assisted or dialed direct ("Meet Me").
   e. DoD Telephone Number to be billed (if operator assisted).
4. Since the DSN network has lines conditioned for preemption, its use on the conference system is discouraged.
5. Conference Call Checklist.
   a. Before the teleconference, the meeting leader should send each participant the following:
      Time/Zone and location of teleconference.
      Agenda.
      Visuals, Charts, Graphs.
      List of Participants.
   b. The leader should contact all participants and arrange for eat participant or a proxy to answer the telephone at the pre-determind time.
   c. During the teleconference, the leader should:
      Announce the agenda.
      Have participants introduce themselves.
      Establish speaking order.
   d. Avoid use of extension telephone.

DOD OFFICIAL TELEPHONE CREDIT CARD USERS

Telephone credit cards are intended for official use when authorized credit card holders are away from their permanent duty stations and have a requirement to place an official call.

Credit cards will not be used by DoD officials to make calls from their permanent duty station.

PERSONAL CREDIT CARD DIALING INSTRUCTIONS

Effective immediately, personal credit card calls may be dialed direct from any unrestricted telephone line served by any DoD Centrex Central Ofc in the National Capital Region. To place a personal credit card call you must first know your long distance carrier's direct dial access code. For example, AT&T's direct dial access code is 10+288. To reach the AT&T long distance network the user must dial as follows: 99+10+288+0+area code+local number. At the tone enter your personal credit card number. You will be billed directly by your long distance carrier for all calls placed via your personal credit card.

TRANSFERRING CALLS*

IMPORTANT: To transfer a call, signal operator by pressing switch hook firmly ONCE.

You can transfer any incoming long distance or direct in-dialing call by signalling the operator. This transfer cannot be made if more than one telephone is open on the line attempting the transfer. Calls made to you from within the same exchange cannot be transferred.

*NOTE: Telephone users with Electronic custom calling features. See instructions below.

CUSTOM CALLING FEATURES

"TRANSFERRING CALLS"
- Depress switchhook once.
- Listen for dial tone.
- Dial desired station.
- Station answers.
- Announce call.
- Hang up.**

"THREE WAY CONFERENCE" CALLS
- Depress switchhook.
- Listen for dial tone.
- Dial desired station.
- Station answers.
- Depress switchhook once—three way connection established.**

"CONSULTATION HOLD" CALLS
- Depress switchhook once.
- Listen for dial tone.
- Dial desired station.
- Station answers.
- Consult with third party.
- Third party hangs up.
- Depress switchhook twice.
- Original call restored.**

**For "Transferring" Calls, "Three Way Conference" Calls, "Consultation Hold" Calls, if the called party fails to answer or station is busy–depress the switchhook twice–you will be reconnected to the orginial party.

MONITORING OF TELEPHONE CALLS

There will be no regular monitoring of telephone calls. In exceptional cases, where monitoring of a speical telephone call is requested by one of the parties, all parties to the convention must be made aware that the call is being monitored.

Personnel must be informed that no calls will be monitored without explicit affirmative instrucitons for each specific call.

REQUISITIONING TELECOMMUNICATIONS SERVICES AND EQUIPMENT

To request telecommunications service or equipment in the National Capital Region contact your agency's Telecommunications Service Control Officer, or if not known, call the Defense Telecommunications Service–Washington Service Support Division 703–696–8682. Pentagon users call 703–614–0150.

TELEPHONE DIRECTORIES

DD Forms 218 and 218–1 ("Telephone Directory Listings") must be completed by the requesting agency and forwarded to Defense Telecommunications Service in order that directory and operator listings can be updated. DD Forms 218 and 218–1 must be submitted as changes occur. New, changed or deletion information will be provided to the DoD information operators soon after receipt from agencies.

MINIMIZE

MINIMIZE is a procedure used during periods of crisis or other abnormal periods to reduce the volume of record and long distance telephone traffic ordinarily transmitted electronically.

MINIMIZE applies to ALL users of DOD communications systems, including originators of card and tape traffic.

Procedures. When MINIMIZE is imposed, users of DOD electrical communications facilities must determine that:

1. The information to be forwarded is required to avoid a seriously detrimental impact on mission accomplishment or safety of life.

2. Electrical transmission is the only way to get the information to the addressee in sufficient time to accomplish its purpose.

Alternate Means of Communications. The US mail, the US Defense Courier Service, or an individual as a courier or messenger should be used instead of using electrical means when MINIMIZE is imposed.

Authority to Impose and Cancel MINIMIZE. Commanders are authorized to impose MINIMIZE within their command or area of command responsibility unless specifically denied by appropriate higher authority. The Joint Chiefs of Staff impose it worldwide as well as in any specific area. The Joint Chiefs of Staff or the commander concerned, as appropriate, will cancel MINIMIZE when no longer required.

Authority. Allied Communications Publication (ACP) 121 US Supplement-1.

JOINT UNIFORM TELEPHONE COMMUNICATIONS PRECEDENCE SYSTEM (JUTCPS)

GENERAL INSTRUCTIONS

1. Joint Uniform Telephone Communications Precedence System which became effective 14 February 1970, is directed for use by all authorized users of the voice communications facilities of the Department of Defense. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, users must be familiar with the purpose to be served by each precedence category and the types of calls which may be assigned the respective precedences. Each authorized user should consider whether a call requires special precedence and exercise care not to request or utilize one higher than the circumstances require.

2. The JUTCPS does not make specific provisions for the conduct of test and exercise calls. Those activities or individuals authorized or required to conduct such tests and exercises will employ precedences consistent with the nature of the test or exercise, and upon contacting the called party will identify the call as a FLASH test call, IMMEDIATE test call, or PRIORITY test call.

3. Calls of a given precedence will not normally pre-empt calls of an equal precedence. However, calls originated by the President of the United States, Secretary of Defense and Joint Chiefs of Staff can pre-empt FLASH calls in progress by application of their FLASH OVERRIDE capability. In addition, commanders of unified and specified commands when declaring either Defense Condition One or Defense Emergency and CINCNORAD when declaring-either Defense Condition One or Air Defense Emergency may also pre-empt FLASH calls in progress by application of the FLASH OVERRIDE capability.

4. The precedence indicators listed on the following page are directed for joint use and specify, by military precedence designator, the relative order in which telephone calls should be handled based on the importance (content) of the call.

JOINT UNIFORM TELEPHONE COMMUNICATIONS PRECEDENCE SYSTEM CHART

MILITARY PRECEDENCE DESIGNATOR	TRANSMISSION PRE-EMPTION	APPLICATION
FLASH	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls. May be pre-empted by the application of the FLASH OVER-RIDE capability availability to: (1) The President of the United States, Secretary of Defense and Joint Chiefs of Staff; (2) Commanders of unified and specified commands when declaring either Defense Condition One or Defense Emergency; (3) CINCNORAD when declaring either Defense Condition One or Air Defense Emergency and other national authorities as the President may authorize.	Flash precedence is reserved generally for telephone calls pertaining to: (1) Command and control of military forces essential to defense and retaliation; (2) Critical intelligence essential to national survival; (3) Conduct of diplomatic negotiations critical to the arresting or limiting of hostilities; (4) Dissemination of critical civil alert information essential to national survival; (5) Continuity of Federal Government functions essential to national survival; (6) Fulfillment of critical United States internal security functions essential to national survival; (7) Catastrophic events of national or international significance.
IMMEDIATE	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls.	Immediate precedence is reserved generally for telephone calls pertaining to: (1) Situations which gravely affect the security of national and allied forces; (2) Reconstitution of forces in a post-attack period; (3) Intelligence essential to national security; (4) Conduct of diplomatic negotiations to reduce or limit the threat of war; (5) Implementation of Federal Government actions essential to national survival; (6) Situations which gravely affect the internal security of the United States; (7) Civil Defense actions concerning direction of our population and their survival; (8) Disasters or events of extensive seriousness having an immediate and detrimental effect on the welfare of the population; (9) Vital information having an immediate effect on aircraft, spacecraft, or missile operations.
PRIORITY	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls.	Priority precedence is reserved generally for telephone calls requiring expeditious action by called parties and/or furnishing essential information for the conduct of government operations.
ROUTINE	Has no precedence over any other call and is handled sequentially as placed by the calling party. No pre-empt.	Routine precedence designation applies to those official government communications which require rapid transmission by telephonic means but do not require preferential handling.

DID YOU KNOW ? ? ?

that DEFENSE TELECOMMUNICATIONS SERVICE—WASHINGTON manages and provides communications equipment and services to Army, Navy, Air Force, and Defense activities in the Washington Metropolitan Area.

Questions? Require assistance? Need technical support?

Call us at the following numbers:

BILLING AND SERVICE ORDERS: 703-695-9111
COMMUNICATIONS SECURITY: 703-695-3090
DIRECTORY ASSISTANCE WITHIN DoD: Dial "0"
all others 703-545-6700
DIRECTORIES (PUBLICATIONS ONLY): 703-697-4228
EQUIPMENT AND TECHNICAL ASSISTANCE: 703-696-8666
FUNDING: 703-697-3656
TECHNICAL SERVICE DIV: 703-696-8666

INTERNATIONAL DIRECT DISTANCE DIALING (IDDD)

1. ALL – – – DOD TELEPHONE EXCHANGES ARE EQUIPPED FOR INTERNATIONAL DIRECT DISTANCEDIALING.
   (This Applies to UNRESTRICTED Telephone Numbers only)
2. TO PLACE AN OFFICIAL INTERNATIONAL CALL, DIAL
   99 + 011 + COUNTRY CODE + CITY CODE + LOCAL NUMBER.
3. THE IDDD COUNTRY AND CITY CODES ARE LISTED BELOW.
4. FOR COLLECT AND CREDIT CARD CALLS, DIAL 9 + 01 + COUNTRY CODE + CITY CODE + LOCAL + NUMBER.
5. SEE INTERNATIONAL TIME ZONE MAP ON AGE 14.

IDDD Troubles Reporting Procedure
Before reporting troubles encounered when dialing IDDD, consider the following steps:
A. Dial the number again.
B. If you encounter a "regular busy signal" after dialing all IDDD access digits, the number you dialed is most likely busy. Dial the number again at a later time.
C. If you encounter a "fast busy signal" after dialing all of the IDDD access digits, this is an Indication that all International circuits are busy. Dial the number again at a later time.
D. If you encounter a "recording" after dialing all of the IDDD access digits, check the following:
1. If the number you are calling from is class of service marked for Direct Dial Long Distance (DDLD). If the line Is not class of service marked for DDLD, then the line is also not capable of accessing/dialing IDDD. Use another line that has a DDLD access to make your IDDD calls.
2. If the number you are calling from has DDLD capabilities, report this trouble to the DoD Operators at commercial 545–6700 or DSN 227–0101.
E. If you encounter "busy signal" or "recording" after dialing "99 + 011," this trouble should also be reported to the DoD Operators at commercial 545–6700 or DSN 227–0101.
